

UNITI PER LA SICUREZZA STRADALE

It is an initiative

Born in 2013 from the cooperation between BM Sport&Drive and Questura di Udine (Udine Police force) aimed at the sensibilisation towards road security through the **free of charge course "Introduction to Safe Drive"**. For a brief period it was an itinerary roadshow , and given its success it has obtained a fully dedicated annual event lasting five days, called **Uniti per la Sicurezza Stradale** "sapere è meglio che improvvisare" – United for Road Safety "knowledge is better than improvisation"

UNITI

  

PER LA SICUREZZA STRADALE

Events on events for United for Road Safety

Right from the start the initiative gained success and interest both of in the private and in the public sectors. Every time United for Road Safety attended an exhibition many people had the chance to learn the basics of the Introductory Safe Drive course with practical exercises carried out alongside Sport&Drive driving instructors (professional experts in this sector) as well as Questura di Udine.

Mission of this initiative is to sensibelize drivers towards road safety offering active car tests in order to teach the driver the correct driving techniques, making him more confident behind the wheel of a vehicle.

Partners in this initiative is also Full Sport Car, sporting association with more than 20 years experience in the car racing sector and always attentive and active in supporting and organizing social events.
